

DYS Legend
10 pt italic numbers=slow mutating alleles
14 pt underlined numbers=normal mutation rate
18 pt bold numbers=fast mututating alleles

R1b1 Morrison DNA study group members, ALL with the McLemore Surname, and all appear to be matches. Some members have only had a 12 marker study done; but due to fact they bear the McLemore surname, are exact 12 marker matches AND the fact that combination of 14/14 at markers 385a and 385b is very unusual in the R1b1 Haplogroup, it is currently being assumed that the group of men below share a common paternal ancestor in a genealogically significant time frame. The lineage information in italics is provided by each participant. Each participant feels confident in their own paper trail and research back to their earliest proven ancestor. Predicted to be R1b1b2

Atlantic Modale Haplotype 13 24 14 11 11 14 12 12 12 13 13 29 18 9 10 11 11 25 15 18 30 15 16 16 17

Note **DYS 385 a-b is 14/14** versus the expected 11/14, this has been checked by a Kittler test to ensure that there are indeed 2 separate DYS 385 Markers, and there are. This is quite unusual.

This is a descendant of Hiram McLemore of Lee County, Virginia, who died on 22 April 1887 in Breathitt County, Kentucky. Thought to be a son of John McLemore and Ruth Steelman, and grandson of Ephraim McLemore. Predicted to be in the R1b1b2 Haplogroup, however he is four steps (at 12 markers) removed from the above R1b1b2 McLemore's, and has NO McLemore matches per the Family Tree DNA database. Exact 25 marker matches to a SAMS and two PAGES, and a genetic distance of 3 from three ALLAN's from Edinburgh, and two WRIGHT's, one from North Carolina, all at rapidly mutating markers.

This is a descendant of James McLemore IV of North Carolina, whose family moved to Montgomery County, Alabama. He does NOT match any of the families above or below, and is instead predicted to be in the R1a1 Haplogroup. No matches in the Family Tree DNA database to any other McLemore's, however, he is an exact 25 marker match to a RAMBO thought to be from Goteborg, Sweden.
